Johannes Autenrieb

johannes.autenrieb@outlook.com • jautenrieb.github.io

Education

Technical University of Braunschweig **Braunschweig, DE**
Ph.D. Candidate *since 03/2022*
- Dissertation Title: A Nonlinear Attitude Control Approach for a Class of Overactuated and Highly Uncertain Hypersonic Flight Systems.

University of Oxford **Oxford, UK**
Visiting Ph.D. Student *since 08/2024*
- Research on online optimization algorithms for improved decision-making in nonlinear system networks under uncertain dynamic conditions.

Massachusetts Institute of Technology **Cambridge, USA**
Visiting Ph.D. Student *08/2022 – 02/2023*
- Research on control barrier functions for use in safety-critical, nonlinear, and adaptive flight control systems.

Cranfield University **Cranfield, UK**
M.Sc. in Autonomous Vehicle Dynamics & Control *09/2018 – 10/2019*
- Master's Thesis: Development of a neural network-supported nonlinear flight control system for an air taxi with a tilt-wing concept.

Anyang University **Seoul, KOR**
M.Sc. Exchange Semester *02/2018 – 06/2019*
- Courses: Cross-Cultural Communication, Leadership Discovery, Korean Language.

University of Applied Sciences Aachen **Aachen, DE**
B.Eng. in Aerospace Engineering *09/2012 – 03/2017*
- Bachelor's Thesis: Development of a generic parameterized 6DOF flight dynamics model for a flight simulator to improve Eurofighter pilot training.

Work Experience

German Aerospace Center (DLR) **Braunschweig, DE**
Research Associate *since 12/2019*
- Research in the field of nonlinear Guidance & Control and advising industrial/political institutions regarding the implications of hypersonic missile technologies.

Rolls-Royce **Cranfield, UK**
Master's Thesis Candidate *04/2019 – 09/2019*
- Development of flight control algorithms (nonlinear dynamic inversion, adaptive neural networks, control allocation) for novel eVTOL concepts.

Korea Advanced Institute of Science and Technology (KAIST) **Daejeon, KOR**
Visiting Research Student *04/2018 – 06/2018*
- Programming and modeling of a simulation framework for the generic simulation of nonlinear flight dynamics of novel aircraft.

CAE GmbH **Stolberg, DE**
Bachelor's Thesis Candidate, Intern, and Working Student *03/2015 – 02/2018*
- Collaborated in a multinational Scrum team to develop and integrate new features, tools, and tests for the Eurofighter flight simulation.

Professional Committees and Commissions

European Defence Agency (EDA) **Brussels, BE**
Non-Governmental Expert *since 01/2021*
- Supporting research and development activities of the European Union in the field of leadership, navigation, and control technologies for military aerospace systems.

NATO STO **Brussels, BE**
Research Group Member *since 12/2020*
- Analysis of the impact of hypersonic threats on military operations and technical requirements for defense systems.

Awards and Honors

09/2022: Travel grant for talented young researchers at German Aerospace Center (DLR).

10/2019: "Course Director's Prize" for outstanding overall performance at Cranfield University.

03/2019: Group-Award for Best UAV Design at BAE UAV Swarm Challenge.

09/2018: Scholarship for studies at Cranfield University.

02/2018: Magellan Network Scholarship for the exchange semester at Anyang University.

Academic Services and Voluntary Work

Paper Reviewer
Journals and Conferences *since 10/2019*
- IEEE REDUAS 2019, CEAS EuroGNC 2022 2024, IEEE Control Systems Letters, ASCE Journal of Aerospace Engineering, CEAS EuroGNC 2024

Germany Foundation Integration **Berlin, DE**
Mentor *since 09/2023*
- Mentoring high-achieving students with migration backgrounds to support them in their early academic careers.

Unmanned & Intelligent Systems Society, Cranfield University **Cranfield, UK**
President *09/2018 – 10/2019*
- Managed the organization with over 60 doctoral and master's students, including project coordination and administration of society activities.

Cranfield University **Cranfield, UK**
Course Representative *09/2018 – 10/2019*
- Represented the interests of students in the Master's program in Autonomous Vehicle Dynamics & Control in meetings with faculty and staff.

University Sports Center, RWTH Aachen **Aachen, DE**
Instructor/Boxing Trainer *03/2015 – 02/2018*
- Conducted weekly boxing classes for students (class size: approx. 40 participants) and successfully participated in several national championships as a coach.

Teaching

Technical University of Braunschweig **Braunschweig, DE**
Teaching Assistant *10/2024 – 02/2025*
- Planning and conducting weekly tutorials in "Modern Control Systems" for up to ca. 60 Aerospace Engineering graduate students.

Technical University of Braunschweig **Braunschweig, DE**
Teaching Assistant *02/2024 – 06/2024*
- Planning and conducting weekly tutorials in "Systemics (Basics of Systems Science)" for up to ca. 90 Aerospace Engineering graduate students.

University of Applied Sciences Aachen **Aachen, DE**
Teaching Assistant *09/2014 – 02/2015*
- Planning and conducting weekly tutorials in "Technical Mechanics 3 (Dynamics)" for up to ca. 30 Aerospace and Automotive Engineering undergraduate students.
